Tributes and Gratitude to Harmony!

Thanks to Harmony for an amazing journey that made us a stronger and better team to build Eave.

THE WALL STREET JOURNAL.

Crypto Startups Are Raising Money Again, With a Twist

Harmony Protocol, a San Francisco-based blockchain startup that specializes in faster so-called smart contracts, recently raised \$5 million through an IEO on Binance.

Harmony has raised \$18 million in its token pre-sale, **CoinDesk** reports. The company got funds from a number of investors, including Lemniscap VC, BCA Fund, UniValues Associates, and Consensus Capital. According to **Harmony** co-founder, the sale was the only means to get the funding compliant to the company's "long-term vision...to create a decentralized protocol."

NEWS

Apple, Amazon Alums Behind Sharding Startup Raise \$18 Million

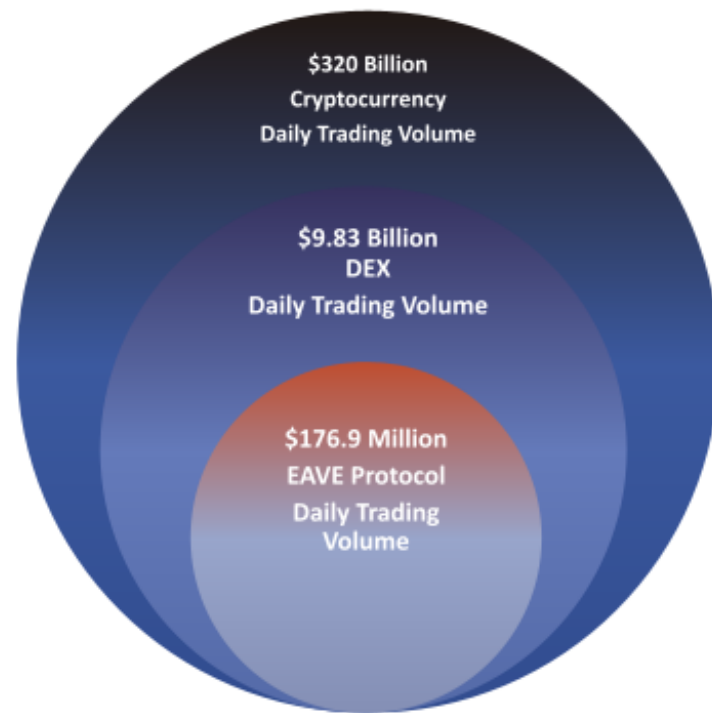

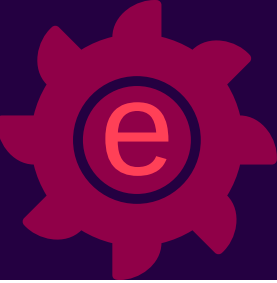

Harmony

Harmony is a proof-of-stake, sharded, EVM-compatible blockchain with 5 second finality and low costs (0.00001 fee).

EAVE Target Market

Target Trading Platforms

- Polkadot Stable Coins
- Polkadot Native Tokens
- Ethereum Stable Coins
- Ethereum ERC20 Tokens

Daily Trading Protocol Fees = \$88,300

**Target 1.8% of DEX Volume by end of 2022

As of April 14, 2021

[Cryptocurrency Trading Volume](#), [DEX Trading Volume](#)

[Kusama Valuation \\$4.4 Billion](#), [Polkadot Valuation \\$44 Billion](#), [Ethereum Valuation \\$279 Billion](#)
